## A Most Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts from native medicinal roots and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Plack Cherry-bark, Bloodroot, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing

"Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchial, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stometh, as in the early stages of consumption, there can be no doubt that clycerine lacts as a valuable nutritive and aids the Golden Seal root. Stone root, Queet's root and Black Cherrybark in promoting digestion and building up the fieth amistrength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be enjected towork miracles. It will not cure tonsumption except in its earlier stages. It will cure very severe obstinate hangon; enough, and bringing about a healthy condition of British and Britisher in the lingering hang or coughs, or those of long standing, aven when accompanied by bleeding from this not so elective. It is in the impediage hange or coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most

marvelous cures.

INDU TRIAL CONDITIONS IN THE

SOUTH. President W. W. Finley, of the Southern Railway Company, who has been looking carefully into commercial and industrial conditions in the southern States, was asked Saturday for a summary of the result of his inquiries.
"While business conditions in the

southern States are not as favorable as we would like to have them," said Mr Finley, "I think the situation in that section is fully as favorable to an early revival of prosperity as that in any other part of the country. Throughout the South, the banking institutions are in sound condition, and, slihough their managers are generally pursuing careful and conservative policies, sonne acidity."
"Golden Medical Discovery" enriches and business en'erprises are generally able to purifies the blood caring histories, pimples, obtain all of the credit needed. From cruptions, scrofulous swellings and old sores. most localities come reports that southern farmers are in a prosperous conditions, and have suts antial bank accounts.

"The question of how soon a revival may be expected to begin is one which no man can answer with certainty, for the re son that some of the reasons, for the continuance of the business depression are psychological."

## LYNCHINGS.

John Burr, a young negro, was lynched near Wesson, Miss., yesterday, by thirty mon, for the murder of a white boy. About dark Saturday night, secording to Burr's confession and the story of au eyewitness, he was fishing in a mill pond when Earl Smith, twelco vests old, son of J. W. Smith, a proserous planter, approached and began a onversation. Burr was an employe of Smi h's fa her, and he said to the boy: "Look op. Look at the bird!" As young Smi h gazed skyward the negro shot him in the back of the head with a sho'gun, but said it was an accident. Ha hrew the boy's body into the mill and and star ed to ca abe, but was soon piured and taken from the sheriff's

Walter Clayton, a negro, who was rving a sentenc- of imprisonmen at the tockade of he Hand Lumber Company, or manufactiver, late Saturday sherwenty years old, and was lynched by a mob of sevents five men, outside the imits of Bay Minette, Ala., Saturday night

It is evident that the negro knew that only the young women and be old man were in the house.

# RIOTING IN LISBON.

The elections in Lisbon yesterday, which were conducted pescefully, with the exception of minor disorders in some of the disaffected districts, were followed last night by serious rioting.

certed plan. Troops, which had been patrolling, and others that had been held in reserve, were immediately ordered into action, and they repeatedly charged the mobs that in places filled the streets, but without effect. The rioters used clubs, stones, and whatever other weapon was at hand and finally the troops were obliged to fire upon them, killing and wounding several persons.

This determined action had the desired effect, and shortly the mobs were well dispersed.

ATTEMPT TO BURN A CHURCH. Miss Mary Morse, organist of the Universalist Church in Bath, Me., foiled a desperate attempt to blow up the edifice with gas an hour before services began yesterday aftert onn. When she arrived at the church she noticed that a lamp was missing from the organ, and detected an order of gas. Looking under the platform upon which the organ rested, Miss Morse saw fi mes and called the junitor, who put out the fire with a few buckets of water. An investigation showed that a gas pipe leading beneath the organ had been disconnected and a lighted lamp placed beneath to touch off the fluid as soon as it is led the compartment. A basket of shavings was also
